**NEXT STEP 2017**  
**DESTINATIONS OF 2016 YEAR 12s**  
**Mount St Bernard College**

**Introduction**

This page presents a summary of results of the annual Next Step survey for Mount St Bernard College. The Next Step survey, undertaken by the Queensland Government, targets all students who completed Year 12 and gained a Senior Statement in 2016, whether they attended a state, Catholic or independent school, or a TAFE secondary college. The Queensland Government Statistician’s Office conducted the survey between March and June 2017, approximately six months after the young people left school. Responses were collected online and via computer-assisted telephone interviewing.

**Response rate for Mount St Bernard College**

Table 1 below reports the response rate for Mount St Bernard College. It expresses the number of respondents from this school, as a percentage of all Year 12 completers who attended Mount St Bernard College in 2016.

Due to the low response rate, these results should be interpreted and used with caution.

**Definitions of main destinations**

The pathways of Year 12 completers were categorised into ten main destinations. Year 12 completers who were both studying and working were reported as studying for their main destination. A table defining these categories can be found in the statewide report at [www.education.qld.gov.au/nextstep](http://www.education.qld.gov.au/nextstep).

**Summary of findings**

In 2017, five young people who completed Year 12 at Mount St Bernard College in 2016 continued in some recognised form of education and training in the year after they left school.

The most common study destinations were VET Certificate III (two respondents) and apprenticeships (two respondents). The combined VET study destinations accounted for four respondents, including two in campus-based VET programs.

One respondent was studying a Bachelor Degree.

Two Year 12 completers commenced employment-based training, both as apprentices.

In addition to the above study destinations, a further one respondent from this school deferred a tertiary offer in 2017 (deferrers are included in their current destination).

Seven respondents did not enter post-school education or training, and were either employed (five) or seeking work (two).
